

What is C like?

Hello World

```
// C Hello World program
#include <stdio.h>

int main()
{
    printf("Hello World!");
    return 0;
}
```

- bool
- char
- double
- float
- int
- long
- string

Prompt user for values

- int
- char
- scanf()
- printf()

```
int main()
{
    int num;
    char name[50];

    // taking input using scanf
    scanf("Enter No.: %d", &num);
    scanf("Enter Name: %s", name);

    // printing output using printf
    printf("Name is %s and Number is %d", name, num);

    return 0;
}
```

What does this mean?

```
int i = 5 < 25 ? 10 : 20;
```

What does this mean?

```
int i = 5 < 25 ? 10 : 20;
```

```
(condition) ? (true-exp) : (false-exp);
```

What does this mean?

```
int i = 5 < 25 ? 10 : 20;
```

```
(condition) ? (true-exp) : (false-exp);
```

So i = 10

If else

if (condition) {action}

else if (condition)
{action}

```
int i = 5 < 25 ? 10 : 20;

if (i == 10) {
    printf("i is 10");
}
else if (i == 15) {
    printf("i is 15");
}
else if (i == 20){
    printf("i is 20");
}
else
    printf("i is not present");
```
